COOLBRAND

HOT PRODUCTS

At a glance portable heating options from the world's leading brand in keeping you warm...

Oil-filled radiator

Ideal for any sized rooms requiring high quality, background heating. Some models can be wall-mounted. SSP's £34.99 - £99.99

- Provide stable and efficient heating.
- Run silently and provide a comfortable heat (they neither dry nor add moisture to the air).
- Offer the perfect mixture of radiant and convected heat, ideal for longer-term use, in homes, conservatories, and small businesses.
- Provide a safe heating source (the heating elements are enclosed).

- Heat up the surrounding area very fast, ideal for short bursts of heat.
- Light and easily portable (many models have carry handles).
- Can also be used for cool air in summer
- Oscillating models are great for distributing the air effectively over a wider area. months.
- Ceramic fan heaters are available too, providing efficient, quality heating.

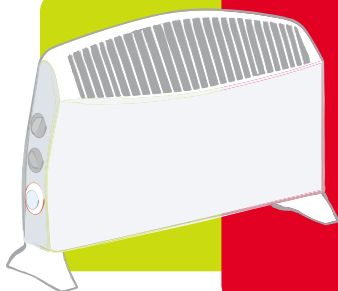

Fan heater

Perfect for spot heating cold areas in any room and for an immediate boost of warmth. With the heating element switched off, fan heaters also offer efficient cooling and ventilation. SSP's £14.99 - £44.99

Convactor heater

Medium-sized to large rooms that must be kept at a constant temperature. SSP's £19.99 - £59.99

- Silent running and quick to warm up.
- They convect the heat around the room, thereby warming up the whole room.
- They can be wall mounted.

- Provide excellent background heat.
- Have economy setting for low running costs (from around 1p per hour to run).
- Can be wall mounted or freestanding.

Panel radiator

Small to medium-sized rooms that require a constant, relatively low level of background heat input and, possibly, permanent fixture. SSP's £49.99 - £69.99
